Please verify the prerequisite features and specifications before buying your computer. The AFHD-SOFT2 comes with the AudiSoft Frontline HD Software client plus the headset camera (HD10 or HD10X2).</p>
AFHDX2-SOFT2	AudiSoft Frontline HD Software with the intrinsically safe headset camera (HD10X2)	  

AudiSoft Servers (Hardware & Software)

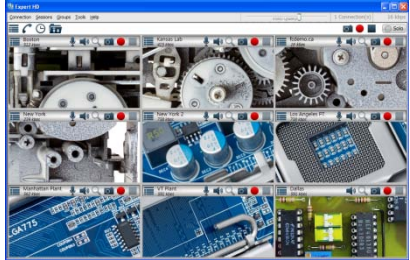

ITEM #	NAME	PICTURE & DESCRIPTION
ASERV-5	AudiSoft Server for 5 concurrent users including Web Server Option and H323 Option (Hardware & Software)	<p>Including: Web Option (ASERV-WEB) H323 Option (ASERV-H323) Scalable & High Availability</p>  <p>AudiSoft Server 5 concurrent users (Hardware/Software) - 5 concurrent users, including Web Server Option, and H323 option (Server is scalable & high availability). The ASERV-5 supports a maximum of 2 concurrent conference calls.</p>
ASERV-10	AudiSoft Server for 10 concurrent users (Hardware & Software)	<p>Including: Scalable & High Availability</p> <p>Optional Features: Web Option (ASERV-WEB) H323 Option (ASERV-H323)</p>  <p>AudiSoft Server 10 concurrent users (Hardware/Software) - 10 concurrent users (Server is scalable & high availability). The ASERV-10 supports a maximum of 5 concurrent conference calls.</p>

ITEM #	NAME	PICTURE & DESCRIPTION
ASERV-20	AudiSoft Server for 20 concurrent users (Hardware & Software)	<p>Including: Scalable & High Availability</p> <p>Optional Features: Web Option (ASERV-WEB) H323 Option (ASERV-H323)</p> <p>AudiSoft Server 20 concurrent users (Hardware/Software) - 20 concurrent users (Server is scalable & high availability). The ASERV-20 supports a maximum of 10 concurrent conference calls.</p> 
ASERV-H323	AudiSoft Server H323 Protocol Option (Software only)	<p>H323 is a protocol standard for multimedia communications. H323 Option is designed to support real-time transfer of audio and video data over packet networks to enable the AudiSoft Server to communicate with more traditional VC solution like the Polycom technology. The H323 Option is included with the ASERV-5 Server bundle. In comparison, for the AudiSoft Servers ASERV-10 and ASERV-20, the ASERV-H323 is optional.</p>
ASERV-WEB	AudiSoft Server WEB Option (Software only)	 <p>The ASERV-WEB Option provides the capability for the Expert user to communicate in audio and video an AudiSoft Frontline HD user through a simple Web browser. The Web Option is a software server centric solution. The Web Option is included with the ASERV-5 Server bundle. In comparison, for the AudiSoft Servers ASERV-10 and ASERV-20, the ASERV-WEB is optional.</p>

ITEM #	NAME	PICTURE & DESCRIPTION
ASERV-UPG	AudiSoft Server Upgrade from ASERV-5, ASERV-10, or ASERV-20 (Software only)	<p>AudiSoft Server upgrade (software only) to the next AudiSoft Server level. (i.e. from ASERV-5 to ASERV-10, or from ASERV-10 to ASERV-20)</p> <p>AudiSoft Server upgrade to go beyond the ASERV-20 is not listed. The price available upon request.</p>

AudiSoft Expert Software

ITEM #	NAME	PICTURE & DESCRIPTION
AEXP-1	AudiSoft Expert-1 Software	<p>AudiSoft Expert-1 Software is the entry level Client Software that enables a remote expert to communicate with an AudiSoft Frontline HD user in the field. In this version, only one session is permitted at any given time.</p> 
AEXP-4	AudiSoft Expert-4 Software	<p>AudiSoft Expert-4 Software is a Client Software that enables a remote expert to communicate with up to four AudiSoft Frontline HD users in the field. In this version, up to four sessions are permitted at any given time (or four concurrent conference calls). Note that an AudiSoft Server with 10 concurrent users (for a maximum of 5 conference calls) is required for such scenario.</p> 

ITEM #	NAME	PICTURE & DESCRIPTION
AEXP-9	AudiSoft Expert-9 Software	<p>AudiSoft Expert-9 Software is a Client Software that enables a remote expert to communicate with up to nine AudiSoft Frontline HD users in the field. In this version, up to nine sessions are permitted at any given time (or nine concurrent conference calls). Note that an AudiSoft Server with 20 concurrent users (for a maximum of 10 conference calls) is required for such scenario.</p> 
AEXP-16	AudiSoft Expert-16 Software	<p>AudiSoft Expert-16 Software is a Client Software that enables a remote expert to communicate with up to sixteen AudiSoft Frontline HD users in the field. In this version, up to sixteen sessions are permitted at any given time (or sixteen concurrent conference calls). Note that two AudiSoft Servers with 20 concurrent users (for a maximum of 20 conference calls) are required for such scenario.</p>
